@giftsandtreatments

Can you make your BOAT FLOAT?

Ask if you can have a piece of 30cm x 30cm aluminium foil for each person in your family. Can you make a boat that can float in a dish of water and hold weight? Make it a fair test by making sure that all of the variables stay the same, just the boat design would change. You might like to try loading your boats with marbles or small stones.

Can you make your TOWER TALL?

Got some straws, spaghetti even just sticks from around the yard? Can you join them in some way to make the tallest tower possible? Maybe have a look at some pictures of really tall towers and see how they keep these structures strong.

What's COOKING?

Maybe you will be allowed to do a bit of cooking for fun during the lockdown? Maybe you could help with dinner or even make a delicious cake! Here's an idea for something 'Sciency' you could do whilst you are in kitchen...

the

As you prepare your food, are you changing it in any way? If you are just cutting it, crushing it, or just defrosting or freezing it, chances are, you are making a physical change to that food – that means you are changing the form that it takes, but not the composition of the food. If you are cooking it or adding something to it that changes it in a way that it can never go back to the substance it was, that's a chemical change. Try keeping a list of the physical and chemical changes that go in in your kitchen this week. I wonder which one you will do most?

Take a LEAF out of my book...

Have you ever tried 'pressing' flowers or leaves? It's good fun and can give you some wonderful, long lasting results.

Leaves and flowers come in all sorts of shapes and sizes. Did you know that if you pick a leaf or flower and gently place it between the pages of a heavy book (with a tissue either side), it will slowly dry out over time and then will last for ages? Some people have pressed

flowers and leaves that they have kept for over 100 years! You'll have to be patient, but when they are dry you can even frame them or make a lovely collage from them.

Who is up for a SCAVENGER HUNT?

Can you find all of the things in this box and the one next to it in your house or garden? You could either collect them or take a photo as evidence on a phone or iPad...

1. Something rigid and shiny
2. Something round and soft
3. Something hard and transparent
4. Something flexible and smooth
5. Something dull, non-elastic and durable.

6. Something weak, rough, opaque and edible.
 7. Something disposable, translucent and white.
 8. Something long, thin and breakable
 9. Something blue, shiny and opaque
 10. Something soft, red, non-elastic, dull and opaque.
 11. Something hard, stiff, polished, metal and silver.
 12. Something strong, heavy and unbreakable.
 13. Something warm, soft and cuddly.
- When you find this last thing... give it a hug.
